

Plegofield

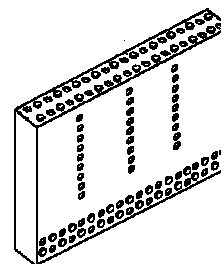

Latest invention to simplify the creation of robotics playing fields.

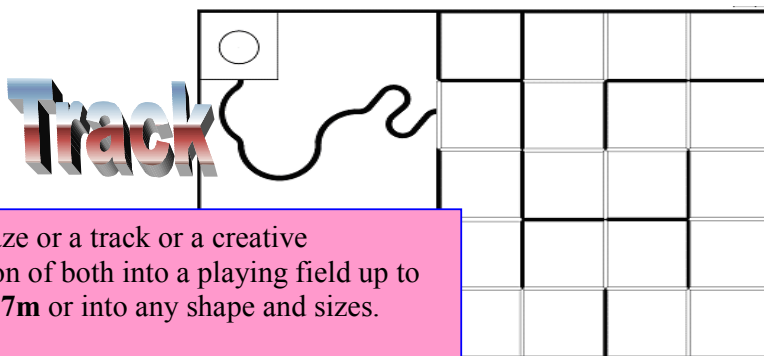

Join (100 pieces 160x16x16mm)

Base (100 pieces 160x160x16mm)
(with different track patterns and some without tracks)

Barrier (80 pieces 160x16x100mm)

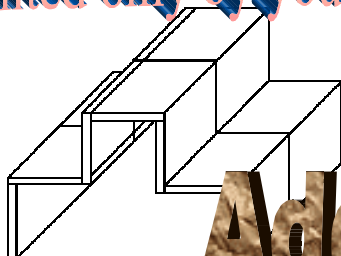

Build a maze or a track or a creative combination of both into a playing field up to **1.7m by 1.7m** or into any shape and sizes.

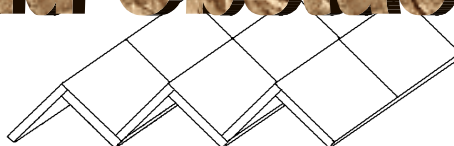

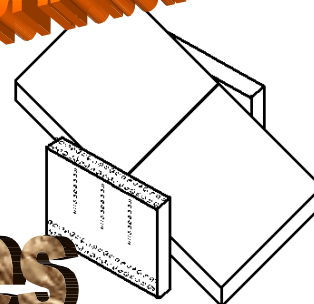

All you need is to join them together like Lego pieces plus a lot of creativity and imagination.

Limited only by your creativity

Asset for Robotics Club

Add Obstacles

Note: All pieces are white in color. These drawings and black outlines are for illustration and clarity purposes.
